

FORAGE FIRST®

Beef Mix

- Superior yield
- Excellent drought tolerance & winter hardiness
- High protein for maximum daily gain
- Strong persistence and regrowth that withstands grazing pressure

Beef Mix aims to enhance animal digestability and performance. It offers an optimal mix of high quality products to provide increased palatability. Contains endophyte free tall fescue.

-  **Includes CrosseCoat™** - an elite platform of proven seed coating and treatments to enhance germination, establishment and survival

FORAGE FIRST® FACTOR: We provide a diverse set of mixes to produce high quality forage for your unique operation. Our versatile mix portfolio offers a variety of proven products to fit any need, created with flexibility and ease of management in mind.

All Forage First® mixes contain top performing forage varieties for improved yield, higher nutritional value, increased stand life and grazing tolerance, excellent regrowth and more.
